**Lessons in Decorative Design.** By Frank G. Jackson. Mr. Jackson is the second master in the Birmingham Municipal School of Art. It is an admirable work. Price, \$3.00.

**Das Mobil.** By Messrs. E. Lambert and A. Stahl, architects. This is an illustrated history of fashionable furniture of all countries in historical order. No such work has heretofore appeared. The trustees of the fund left by the late Mr. Lick, of San Francisco, to defray the expenses of a group of statuary in City Hall avenue (\$100,000) advertised two years ago for designs and models from native and foreign artists. Prizes of \$500 and \$300 were offered for the second and third designs in order of merit, while the winner of first prize was to erect the monument. Twenty-four designs were sent in and exhibited. None appears to have been considered worthy, for the trustees have lately made a contract with four persons to supply them with as many models, one and a half inches to the foot. The models must be in by June 30, 1890, when each contractor is to receive \$250, and ninety days thereafter \$500, making \$750 for the model. The struggle of the Lick Trustees with high art is one of the most comical developments of a civilization in which wealth comes too fast for culture. Heaven will be more than ordinarily kind to San Francisco if that city is spared an infliction of statuary to which our Bolivar will be a masterpiece.

Wall Filling, Dado and Frieze in Fire-Proof Stereo Relief.

### The Stereo Relief Decorative Composition.

THE Stereo Composition can be moulded into an infinite variety of artistic forms, in pure white or in tints, and can be gilded, silvered or bronzed, thus readily reproducing or duplicating any desired design furnished by architects or decorators. This substance contains no oil, white lead, or other inflammable material, and is absolutely fire-proof and sanitary. It is not affected by contact with water or by any sudden change of temperature.

Its expense is less than that of any other artistic decoration, and it fully equals the best in beauty, while it surpasses all others in the essentials of Strength, Lightness, Adhesiveness and Non-Inflammability.

It is admirably adapted for the decoration of churches, theatres, public halls, hotels, restaurants and private residences; and, as a substitute for paint, paper, frescoing, kalsomining or other hard finish, it is infinitely more economical—quality and durability being considered.

### Stereo Relief Friezes, Dadoes, Panels, Etc.

The Company has always on hand a large and elegant assortment of friezes, wall fillings, borders, panels, dadoes, rosettes, etc., etc., in relief, manufactured from its Stereo Composition. This material is far superior to papier-maché, or plaster; is light, but strong and substantial, and admits of the application of any desired style of ornamentation. These decorations, embracing entirely new designs, are made in very high, as well as low relief, and are readily and safely handled.

Your attention is especially asked to the fact that our work is complete before it is sent out from our factory, and can be put up by any workman in the decorative trade, thus enabling our patrons who are at a distance to render perfect satisfaction to their customers.

The high relief in which this new composition can be produced forms one of its prominent features, an elevation of six or eight inches being as readily shown as one of half an inch. And, as the material is cast in flexible moulds, a perfect under-cut—that great desideratum of artistic relief work—is obtained with ease. In representations of heads and figures, a lifelike resemblance is effected; and architectural details are also followed with a similar fidelity; while in fruits, vines and flowers, the grace, beauty and pose of nature are retained, and the stiffness and preciseness of stamped work, such as the Lincrusta-Walton or papier-maché, are avoided.

In conclusion, we claim that there is a great public need of productions such as ours, and we believe that, in our new material, we have reached the desired point of perfection.

Pre-eminent in all elements of decoration, and its development and practicability established beyond peradventure, we most respectfully ask your co-operation in the ultimate establishment of the Stereo Relief Decorations as a leader for all kinds of wall and ceiling ornamentation.

We invite correspondence, and, having no fear of competition, shall be glad to furnish estimates promptly. Personal inspection of our work is solicited, as well as a visit to our factory and salesroom.

Gentlemen:-

We think it only fair to you to state that we have found "The Decorator and Furnisher" to be the best medium for advertising our business amongst the many journals in which we have advertised for some time past. The returns and inquiries received in reply to our advertisement in your journal were more than the returns from our advertisements in all the other journals put together. A VERY pretty thing for half curtains is of plain muslin, embroidered in the tambour work of our grandmother's time. Daisies and but-tercups in natural designs seem to grow up carelessly and gracefully from the hemstitched edge which makes the bottom of the curtain, toward the plain edge which turns over for the running string at the top, and the effect is charming. Long curtains and bed sets can be had in these same designs.

**THACKERAY'S  
COMPLETE WORKS.**

Limited to 1000 Numbered Copies.

Unquestionably the handsomest edition of Thackeray's writings, the nearest approach to the highest ideals of perfection in bookmaking ever attempted in this country.

The type is from a new font especially cast for it, and never used for any other purpose.

The paper, also especially made for it, combines the qualities of excellence in finish and in the materials used with a lightness of weight that prevents the volume from being uncomfortably heavy to hold and read.

The illustrations, a distinguishing feature on account of the great variety and excellence, consist of 210 woodcuts, mainly from drawings of the author, and reproductions from the drawings of Millais, Barnard, and Luke Fildes, together with two etched portraits, twenty original etchings, together with the famous etchings by George Cruikshank, over twenty-five in number, and many photogravures from scenes referred to.

All of these illustrations will be proof impressions on Imperial Japanese paper, especially imported for this work.

The set will be completed in 30 volumes, at the rate of about two volumes per month.

Price, bound in vellum cloth, gilt tops, uncut, \$2.50 per vol.

Issued by subscription only, and no orders taken except for complete sets. Prospectus with specimen, showing type, page, paper, etc., with specimen illustration, mailed free on application.

LIMITED TO 1000 COPIES.

The first and only fine illustrated edition of Lord Bulwer-Lytton's Novels ever made in Europe or America.

Bulwer stands foremost among novelists as a student and delineator of human nature, instincts and passions, and he is also acknowledged to be the most versatile writer of his day and generation.

His popularity is increasing every year, and the publishers recognize the great demand for a good edition of his writings. This edition is embellished with over 200 photogravures on Japanese government paper from original drawings and paintings by the best illustrators in America, and photographs of the actual scenes and places referred to, gathered on the spot especially for this edition.

The manufacture of the book is perfect.

The type is large and new, and set in a fine open page. The margins are ample, and the paper a beautiful natural tint laid paper. The volume is a small 8vo, easy to handle, and the binding is vellum cloth, gilt tops, slightly trimmed. Complete in 32 vols., issued at the rate of about 2 vols. per month, at \$2.50 per volume. Prospectus and specimen pages showing type, page and paper, with simple illustration, sent on application.
